### 2. Reasons

The Company’s basic policy on profit distribution is that it will aggressively return profits to shareholders with a goal of reaching a dividend on equity ratio (DOE) of 4% by fiscal year 2024, having adopted DOE as its main financial indicator for dividends and comprehensively taking into account the maintenance of cash flow and a sound financial foundation for the medium to long term.

The Articles of Incorporation stipulate that the Company can distribute retained earnings on the basis of a resolution by the Board of Directors, and basically distributes dividends twice a year, once at the end of the first half of the fiscal year and again at the end of the fiscal year.

Year-end dividends for the fiscal year ended in March 2024 will be an ordinary dividend of 46.4 yen per share, as per a resolution by the Board of Directors made on this date. As a result, when including the interim dividend of 46.4 yen per share that has already been paid, annual dividends for this fiscal year will be 92.8 yen.
