

About the TACHI-S ESG Concept

The TACHI-S Group's vision is "To live in harmony with individuals and society and to put smiles on people's faces by continuously creating living spaces of comfort and enrichment." By putting our vision into practice, we will strive to meet the demands and expectations of our stakeholders and contribute to the realization of a sustainable society through implementation of ESG activities. To achieve this, we have positioned "social contribution through manufacturing" and "social responsibility in business processes" as our ESG cornerstones and aim for management that integrates ESG with business activities.

In "social contribution through manufacturing," we will continue to create safe, secure, and comfortable vehicle interiors centering on automobile seats based on innovative technologies that bring smiles to people's faces and contribute to society through the value provided by our products and services. In "social responsibility in business processes" we will fulfill our social responsibilities as a good corporate citizen by not only complying with laws, regulations, and social rules, but also addressing issues facing society, such as the promotion of diversity and prevention of global warming.

We will always put ESG at the center of our management strategy, and work to realize our vision through these activities while striving for sustainable corporate growth.
